Translation

You asked me how deep is my love for you
and how much do I love you.
My feelings for you is true
and my love for you is true
As the moon represents my heart

You asked me how deep is my love for you
and how much do I love you.
My feelings for you are steadfast
My love for you is unchanging
And the moon represents my heart

A Soft kiss from you
have indeed moved my heart
This deep love that is present
Keeps me longing until today

You asked me how deep is my love for you
and how much do I love you.
So I ask you to think about this
and ask you to take a close look at this
as the moon represents my heart
